DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 04/30/2007 has been entered.

Response to Arguments

2. Applicant's arguments in light of the amendment filed 04/30/2007, with respect to claims have been fully considered and are persuasive. The prior art rejection has been withdrawn. The previously applied prior art does not disclose a KVM environment having a signal converting device being integrated into a connector or cable, such that the signal converting device converts from PS/2 to USB or USB to PS/2.

Allowable Subject Matter

3. Claims 1-12, 14 and 16-23 are allowed.

The following is the statement of reasons for the indication of allowable subject matter: The prior art disclosed by the applicant and cited by the Examiner fail to teach or suggest, alone or in combination, ***all*** the limitations of the independent claim(s) (*claims 1 and 12*), particularly a KVM switch cable for connecting a computer to a KVM switch comprising: a transmitting line, a set of computer connectors comprising: a USB or PS/2 connector, a combination connector connecting between the KVM switch and
